

For our office in Lviv we are looking for

Junior Front - end Engineer

At Logivations, we have a balanced mix of research and focus on delivering only the best products. For our friendly and professional team in Lviv we are looking for talented engineer to work on our next features, to transform how logistics are operated.

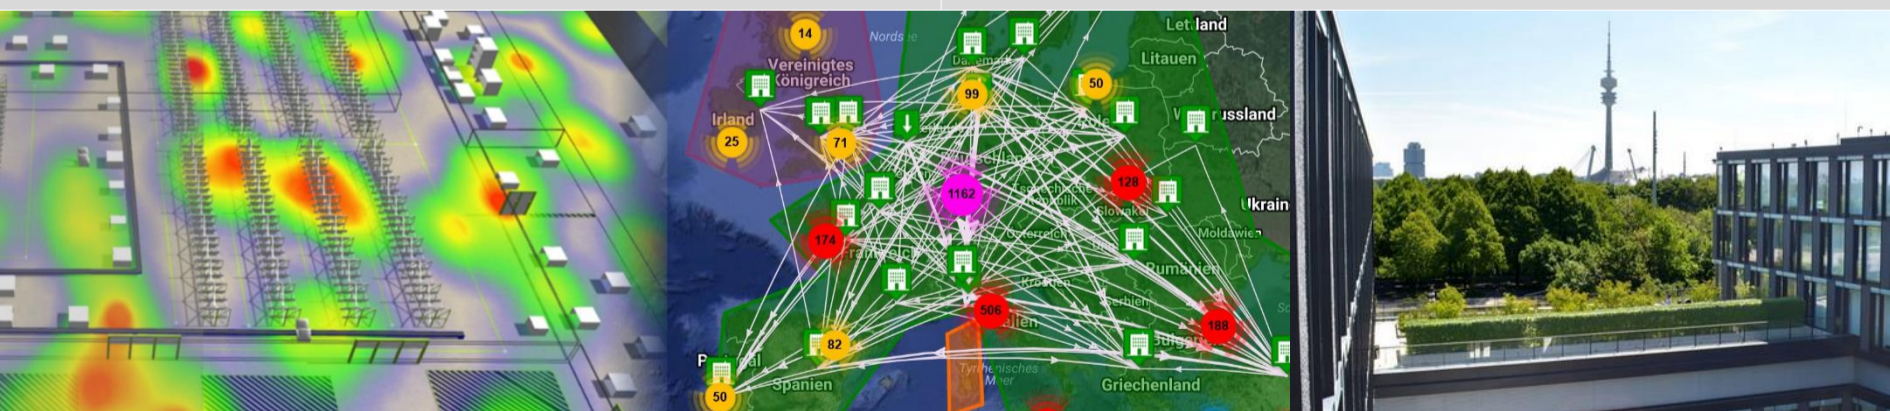

Your future responsibilities will be:

- Take over the responsibility for several modules of our Modeling & Optimization Software
- Create and implement own highly interactive UIs
- Have vision and ideas of functionalities to improve our software
- Apply company working procedures on daily basis

This is your background:

- Good knowledge of jQuery, React + Redux, ES6
- Knowledge of front-end development tools (webpack)
- Working experience with Bootstrap
- Experience with TypeScript, backbone.js, Google Maps API, Canvas would be a plus
- Good analytical skills
- Sense of responsibility and self-organization
- Self-improvement potential
- Personal initiative, structured way of working and creativity
- You are a good team player and convince with your friendly and empathetic manner
- Education: Completed studies in the field of Computer Science or Mathematics

Our award-winning software W2MO is the world leader in the design, 3D and VR visualization, optimization and evaluation of processes in supply chain, warehouse and production logistics as well as ML-based object recognition and control of ML-guided AGVs

Join a great working environment:

- An exciting job in an international company with well-known national and international customers
- An attractive compensation
- Good professional development opportunities
- Nice helpful colleagues and flat hierarchies
- Extras such as free drinks and fruits
- Good office location
- With a comprehensive induction program you will be well prepared for your tasks.
- In short: a position with a great future!!!

Will you join us?

We look forward to your online application including your financial expectations and possible start date to: career@logivations.com
