

PRESS RELEASE

AI lab, customer events and expert seminars in the ideal surroundings

Logivations moves to its new corporate headquarters directly at the “Olympiapark” in Munich

Munich, 29 May 2019 – [Logivations GmbH](#), international consulting and technology company moved to its new headquarters on the top floor of “88 North” office complex at Munich “Olympiapark” in April 2019.

With the opening of the [new office](#), Logivations reacted to the continued strong growth and offered its employees more office and research space with state-of-the-art equipment in a pleasant atmosphere. The new office in “88 North” in Riesstrasse is centrally located at one of the hotspots of the new professional world in Munich and fulfills all the requirements for an attractive working environment with its trend-setting infrastructure. Moreover, it is also one of the most famous flagships of the modern architecture in Munich’s inner city, directly between the landmarks Olympiapark and o2 tower. The transport connection is perfect as well: the main railway station can be reached in less than 10 minutes by subway and the airport in 25 minutes by car.

In its own innovation center, Logivations further develops pioneering technologies as e.g. [AI guided AGVs](#) and helps companies in modernizing their logistics. Extensive test areas allow the usage of camera-based live tracking and exact navigation with millimeter precision. Logivations also gives customers and prospects insight into the AI lab.

Note: For the first time, the popular specialist seminar series [“Challenges and chances of warehouse logistics 2022+”](#) from 19 – 20 September will take place in the prominent “Design Offices” of 88 North. The participants will experience the latest technology trends for design and optimization of distribution centers based on practical examples in the modern seminar rooms.

With its [software solution W2MO](#), Logivations offers a globally unique functional spectrum and integration, from supply chain engineering, intelligent optimization algorithms, identification and live tracking of real product movements up to operational control of AI guided AGVs.

About Logivations

Logivations is an international consulting and technology provider with headquarters in Munich. The company develops innovative solutions based on advanced AI, optimization and web technologies as well as “Deep Machine Learning” for the holistic planning and optimization of all logistics aspects under the motto “Design by efficiency”. Our software solution W2MO is globally leading in the design, 3D- and VR simulation, optimization, evaluation of supply chain processes, warehouse and production logistics. Already more than 30.000 professional users worldwide use W2MO directly from the cloud or locally installed. W2MO has been nominated several times by committees of experts, inter alia as the “Best Product” at LogiMAT 2011, 2013 by Gartner Inc., the US analyst, as “Cool Vendors in Supply Chain Management Applications” and in November 2016, Volkswagen awarded Logivations as “Top Innovator” for logistics innovations.
